Cay that Carry, is the icy, ironic, scolding-footing farce. Ketchup Soup is an epic, and at times ribald, comedy about the lovable James Reichardt, a verbose junior copywriter who's just landed his first job at a sleepy advertising agency in New Orleans. Part genius, part naive miscreant, James suffers from illusions of grandeur, not the least of which are the beliefs that business is the key to happiness and that he is the one man who can make the world a better place. A celebration of the liberating power of consciousness—a triumphant book that lets us witness an indomitable spirit and share in the pure joy of its own survival. In 1995, Jean-Dominique Bauby was the editor of the French Elle, the father of two young children, a 44-year-old man known and loved for his wit, his style, and his impassioned approach to life. By the end of the year he was also the victim of a rare kind of stroke to the brainstem. After 20 days in a coma, Bauby awoke into a body which he had all but stopped working: only his left eye functioned, allowing him to see and, by blinking to "talk", to communicate. In the years that followed, Bauby was to write in a manner richly inventive—a word at a time, blinking to select each letter as the alphabet was rehearsed. He was soon able to write words, and when he was able to write sentences, he was recited to him over the phone. In magical sequences, he imagines traveling to other places and times and of lying next to the woman he loves. Fed only intravenously, he imagines preparing and tasting the last flavor of delicate dishes. Again and again he returns to an "infenestable reservoir of sensations, "keeping in touch with himself and the life around him. Jean-Dominique Bauby died two days after the French publication of The Diving Bell and the Butterfly. This book is a lasting testament to his life.
