RACTA 2018: Ricerche di Archeologia Cristiana, Tardantichità e Altomedioevo

This book analyzes the relationships that exist between esotericism and music from Antiquity to the 20th century, investigating ways in which magic, astrology, alchemy, divination, and cabbala interact with music. Ce livre offre un panorama des relations entre l'ésotérisme et la musique de l'Antiquité au 20ème siècle et montre comment la magie, l'astrologie, l'alchimie, la divination et la cabale interagissent avec l'art et la science des sons.

Religious Narratives in Italian Literature after the Second Vatican Council

Gli atti del convegno “Le case di Pisa” pongono l’accento sull’edilizia privata della città tra Età romana e Medioevo, facendo emergere dati inediti o solo parzialmente pubblicati di scavi recenti, ma anche molto lontani nel tempo. L’intento è quello di tornare al dato archeografico (troppo spesso trascurato in favore di sintesi più generali), qualunque sia la qualità della documentazione di partenza, con lo scopo di seguire il processo interpretativo, mostrando anche il “backstage”, per usare una metafora cinematografica, talvolta dato per sottinteso o scontato. I contributi presentati seguono un approccio analitico e nello stesso tempo critico alla lettura dei resti archeologici, offrendo nuovi dati sulle “case di Pisa” romana e medievale, differenti per forme architettoniche, materiali costruttivi e distribuzione nello spazio urbano e suburbano di una città dalla stratificazione plurimillenaria. Il volume costituisce dunque un aggiornamento imprescindibile per tutti coloro che si occupano di archeologia pisana.

Music Moves for Piano
Neue Forschungen in Velia

In the World of the Second Sophistic, education, paideia, was a crucial factor in the discourse of power. Knowledge in the fields of medicine, history, philosophy, and poetry joined with rhetorical brilliance and a presentable manner became the outward appearance of the elite of the Eastern Roman Empire. This outward appearance guaranteed a high social status as well as political and economical power for the individual and major advantages for their hometowns in interpolis competition. Since paideia was related particularly to Classical Greek antiquity, it was, at the same time, fundamental to the new self-confidence of the Greek East. This book presents, for the first time, studies from a broad range of disciplines on various fields of life and on different media, in which this ideology became manifest. These contributions show that the Sophists and their texts were only the most prominent exponents of a system of thoughts and values structuring the life of the elite in general.

Outer billiards provides a toy model for planetary motion and exhibits intricate and mysterious behavior even for seemingly simple examples. It is a dynamical system in which a particle in the plane moves around the outside of a convex shape according to a scheme that is reminiscent of ordinary billiards. The Plaid Model, which is a self-contained sequel to Richard Schwartz's Outer Billiards on Kites, provides a combinatorial model for orbits of outer billiards on kites. Schwartz relates these orbits to such topics as polytope exchange transformations, renormalization, continued fractions, corner percolation, and the Truchet tile system. The combinatorial model, called “the plaid model,” has a self-similar structure that blends geometry and elementary number theory. The results were discovered through computer experimentation and it seems that the conclusions would be extremely difficult to reach through traditional mathematics. The book includes an extensive computer program that allows readers to explore the materials interactively and each theorem is accompanied by a computer demonstration.

Seneca the Elder and His Rediscovered ›Historiae Ab Initio Bellorum Civilium‹

The refreshed insights into early-imperial Roman historiography this book offers are linked to a recent discovery. In the spring of 2014, the binders of the archive of Robert Marichal were dusted off by the ERC funded project PLATINUM (ERC-StG 2014 n°636983) in response to Tiziano Dorandi's recollections of a series of unpublished notes on Latin texts on papyrus. Among these was an in-progress edition of the Latin rolls from Herculaneum, together with Marichal's intuitions that one of them had to be ascribed to a certain 'Annaeus Seneca'. PLATINUM followed the unpublished intuition by Robert Marichal as one path of investigation in its own research and work. Working on the Latin P.Herc. 1067 led to confirm Marichal's intuitions and to go beyond it: P.Herc. 1067 is the only extant direct witness to Seneca the Elder's Historiae. Bringing a new and important chapter of Latin literature arise out of a charred papyrus is significant. The present volume is made up of two complementary sections, each of which contains seven contributions. They are in close dialogue with each other, as looking at the same literary matter from several points of view yields undeniable advantages and represents an innovative and fruitful step in Latin literary criticism. These two sections express the two different but interlinked axes along which the contributions were developed. On one side, the focus is on the starting point of the debate, namely the discovery of the papyrus roll transmitting the Historiae of Seneca the Elder and how such a discovery can be integrated with prior knowledge about this historiographical work. On the other side, there is a broader view on early-imperial Roman historiography, to which the new perspectives opened by the rediscovery of Seneca the Elder's Historiae greatly contribute.

Nove autorevoli traumatologi mostrano come trattare più efficacemente i traumi complessi con un approccio integrato che include EMDR ed Ego
State Therapy. I potenti benefici dell’EMDR nel trattamento del PTSD sono stati già ampiamente dimostrati. In questo nuovo e innovativo lavoro, nove clinici esperti mostrano come un PTSD complesso – con elementi dissociativi – e altre diagnosi particolarmente sfidanti possano essere trattate efficacemente preparando con cura i pazienti alla somministrazione dell’EMDR e introducendo la Ego State Therapy per focalizzare gli stati dell’io dissociati insorti in risposta a gravi e prolungati traumi. Si tratta pertanto di un lavoro pionieristico che punta a integrare l’EMDR con la Ego State Therapy, aprendo a nuove possibilità terapeutiche per i professionisti che lavorano con pazienti che presentano traumi complessi e dissociazione. Attraverso la sua proposta integrativa, questo libro rappresenta un punto di svolta nello sviluppo della terapia EMDR proponendo un modello applicativo per il trattamento di questa importante ed estesa popolazione clinica. Il lettore certamente apprezzerà la ricchezza dell’opera che, oltre a sezioni più teoriche, si compone di numerosi casi clinici e di una generosa bibliografia di riferimento. Se siete professionisti che lavorano con pazienti traumatizzati, questo libro non può certamente mancare nella vostra libreria.

Georges Bizet: Carmen

This book presents a semiotic study of the re-elaboration of Christian narratives and values in a corpus of Italian novels published after the Second Vatican Council (1960s). It tackles the complex set of ideas expressed by Italian writers about the biblical narration of human origins and traditional religious language and ritual, the perceived clash between the immanent and transcendent nature and role of the Church, and the problematic notion of sanctity emerging from contemporary narrative.
